Productivity meets flexibility

The SC4000 is a high-productivity, commercial ride-on scrubber perfect for cleaning both large, open spaces as well as small. With a more compact-design it is easy to maneuver in narrow spaces, and able to pass through standard-sized doorways.
Available in both High-Performance and standard models the SC4000 was developed with contract cleaners, schools, hospitals, and retail stores in mind, and is designed to clean a wide variety of flooring surfaces, with its highly versatile three deck options.

Picture shown may not represent model quoted

- Disc decks available in 28in or 34in
- Cylindrical decks available in 28in or 32in
- REV™ deck available in 28in

- Work quickly and easily, regardless of obstacles/changing environment. Up to 5 mph with HP models, 4.4 mph with standard.
- Clean inconspicuously any time – even in congested environments – due to best-in-class turning radius, a compact profile, and quiet operation.
- Ensure high-quality cleaning every time, regardless of soil level, with SmartFlow™ technology that adjusts the solution flow according to the travel speed.
- Save water, detergent, and increase productivity by choosing the optional EcoFlex™ system.
- Improve safety with Clear-View™ design and steering-mounted controls.
- Intuitive OneTouch™ controls and SmartKey™ simplifies training and manages operational parameters.
- Eliminate the use of stripping chemicals and associated operator risks with REV™ Random Orbital Scrubbing technology.
- Light sweep and scrub simultaneously with the cylindrical decks, increasing your productivity and cleaning efficiency, and eliminating the need for pre-sweeping.
- Receive ongoing support from Nilfisk Service, training programs, and online tools to maximize the long-term value of your investment
