Walk-Behind Sweeper

Superior Productivity for Hard and Soft Floors

The Terra® 28B walk-behind floor sweeper leaves wide-area vacuums in the dust. With its 28” sweep path and specially designed main broom, you can clean up to 20,000 sq. ft. of carpet per hour (versus 8,000 sq. ft. per hour for a 28” vacuum).

Benefits of Terra 28B Walk-Behind Sweepers

The Terra 28B delivers superior efficiency and performance. Featuring All Surface, All Purpose sweeping technology, you can clean from one floor type to another without changing the broom. In most situations you won’t even have to adjust the broom height. With low sound levels and easy maneuverability, this is an ideal sweeping and vacuuming solution.

Picture shown may not represent model quoted

- Pick up everything from dirt and sand to paper and plastic bottles with the specially designed main broom
- Simplify operation and minimize user training thanks to the easy-to-use One-Touch™ operation, streamlined design and superior maneuverability
- Clean during the day, and meet green-cleaning noise standards, thanks to low 59 dB A sound levels (meets LEED-EB and GS-42 standards)
- Improve indoor air quality with bagless design, durable polyester panel filter and the most aggressive filter shaker in its class
- Eliminate the need for edge cleaning with the integrated side broom
- Ensure easy maintenance with tools free broom and hopper removal
