MEDICAL

Our Story

Founded in 2000, Drive Medical has rapidly become a leading manufacturer of durable medical equipment with offices throughout the world. With the 2015 acquisition of DeVilbiss Healthcare, an innovator in respiratory care since 1888, we expanded to include a full line of reliable oxygen and respiratory products used in more than 100 countries.

Our Products

We carry a complete line of life-enhancing durable medical equipment focused on innovation, functionality, and value, including mobility products, beds, wheelchairs, pressure prevention products, bathroom safety and commodes, respiratory equipment, pediatric rehab products, patient room equipment, personal care products, aids to daily living, and electrotherapy devices.

Behind each of the **3,500+ products** we manufacture is the goal of improving the quality of life and promoting the independence of the individuals who use them. We are dedicated to our customers and partners and continuously work to provide them with the highest quality products across a broad spectrum of healthcare needs, excellent value, and unparalleled customer support.

Accessories

NexStride® by Drive®

Item

FG-1000

- Audible Metronome: NexStride®'s metronome emits an audible signal, engaging a different pathway in your brain to enable you to move forward.
- Visual Laser Line: In addition to audible external signaling, NexStride® uses visual external signaling by way of a laser signal that shows you where to step, giving your brain a target to focus on and a new way to engage with the body (this can also help correct stride issues).
- Regain Your Independence: Use NexStride walking cane, rollator, or walker accessories in your home to navigate between rooms and use the bathroom unassisted. Take NexStride on walks through the neighborhood or to meet up with friends and continue to enjoy the freedom and independence that comes with walking on your own.

MEDICAL

Canes & Crutches

Enhanced Comfort and Independence

For dependable mobility products you can trust, doctors, hospitals, and individuals alike turn to Drive Medical. We offer a wide variety of canes and crutches to provide the precise, individual level of support you need to protect your independence and safely enhance your mobility. Whether you're looking for mobility assistance during a temporary period of recovery, or to better support your balance during everyday activities, you'll find a finely crafted solution from Drive.

AIR-CANE™

Walk on Air™

Most canes on the market are commodities—low-quality, uninspiring, and easily undercut online. **The Air-Cane sets a new standard.** Featuring a groundbreaking patented Air Handle and Flex Grip™ Air-Tip designed with Airgonomic™ technology, plus a sleek look and advanced comfort, it's the cane users notice and ask for by name. For your customers, it feels like walking on air. For you, it delivers showroom differentiation, stronger customer loyalty, and reliable margins with MAP pricing you can count on.

A cane so advanced, they'll feel it from the very first step

Less Pain, More Comfort

The innovative Air-Handle is designed to ease hand strain and fatigue from the start with the cushioned PU ergonomic grip and a built-in air bladder that adapts to each user's grip.

Confidence in Every Step

The patented FlexGrip™ Air-Tip softens every step with innovative air bladder technology, while the water-dispersing treads are designed to improve stability and helps users maneuver through wet or uneven surfaces.

Compact & Travel-Ready

Effortless travel and storage for users and caregivers alike—this collapsible 3-part design folds in seconds, slipping neatly into your bag or storing compactly when not in use.

NexStride® by Drive®

Item #
FG-1000

- Audible Metronome: NexStride®'s metronome emits an audible signal, engaging a different pathway in your brain to enable you to move forward.
- Visual Laser Line: In addition to audible external signaling, NexStride® uses visual external signaling by way of a laser signal that shows you where to step, giving your brain a target to focus on and a new way to engage with the body (this can also help correct stride issues).
- Regain Your Independence: Use NexStride walking cane, rollator, or walker accessories in your home to navigate between rooms and use the bathroom unassisted. Take NexStride on walks through the neighborhood or to meet up with friends and continue to enjoy the freedom and independence that comes with walking on your own.

Crutches

AIR-CRUTCH™

Walk on Air™

Introducing the smarter alternative to painful traditional crutches. The Air-Crutch combines clinical precision with user-first comfort, featuring Airgonomic™ patented underarm cushions with innovative air bladders designed to disperse pressure where users feel it most. With adjustable sizing to fit users from 4'7" to 6'7" and support up to 300 lbs., Air-Crutches are built to help a wide range of users move with less pain and experience a more comfortable recovery. For you, that means stronger customer loyalty, premium showroom appeal, and simplified inventory with one solution that fits users from youth to tall adult — all while protecting margins with MAP pricing.

Advanced engineering where standard crutches hurt most

All-Day Comfort

With 57.9% thicker padding and 21% more surface area than standard crutch pads, the patented Airgonomic™ underarm cushions disperse pressure with layered air bladder and PU foam — for unmatched comfort.

Less Pressure, More Support

Naturally angled soft, gel handles reduce hand and wrist strain, delivering 27.6% less pressure than standard crutches.

Cushioned Confidence in Every Step

The patented Flex Grip Air-Tip softens every step with innovative air bladder technology, while the water-dispersing treads are designed to improve stability and helps users maneuver through wet or uneven surfaces.

Wheelchair & Transport Chairs

Safe & Comfortable Mobility

Maintaining mobility is important when it comes to protecting independence and supporting wellbeing—but doing so safely and comfortably is also crucial. Drive Medical has put decades of clinical research and care into developing and building wheelchairs and transport chairs that put users and caregivers in the driver's seat. From easy-to-use wheel locks and anti-tippers, to padded seats, adjustable armrests, and elevated leg rests, our products are loaded with customizable features that both protect users and provide them with a comfortable, customizable ride. Our wheelchairs and transport chairs are also lightweight and fold compactly for easy storage and transport, to support and enhance the busy lives of users and those who care for them.

Wheelchairs

AeroFly™ Ultra-Lite Wheelchair

Ultra-lightweight yet ultra-capable, the AeroFly™ Ultra-Lite Wheelchair is engineered for users who live life on the move. With a sleek, modern design and a frame that weighs just 13.3 lb.*, it's among the lightest wheelchairs in its class. It's competitively priced and incredibly easy to ship, store, and deliver.

Effortless Patient Adoption

Offers stress-free portability your customers will love thanks to lightweight yet durable magnesium alloy construction, fold-down backrest, quick-release rear wheels, and built-in carry handles.

Fully Equipped to Keep Customers Safer

Safety comes standard with included wheeled anti-tippers, plus a dual braking system, treaded tires for improved traction and stability, and European-style footrests with integrated heel loops to keep feet secure.

Protects Your Margins

Competitively priced against similarly equipped ultra-lightweight wheelchairs to maximize your returns with MAP pricing to ensure you won't be undercut.

Stands Out to Sell More

Differentiate your offerings and draw customers to your showroom with the sleek and stylish patent-pending frame design in a choice of two premium finishes.

*Transport weight, 18" model – excludes rear wheels, anti-tippers, and footrests. Total product weight is 19 lbs with rear wheels attached.

Drive® DualEase® Gel Cushion

Item #	Product Description
14991	16" W x 16" L x 2" H
14992	18" W x 16" L x 2" H
14993	20" W x 16" L x 2" H

- Expertly engineered for pressure relief, skin protection, and personalized comfort. Perfect for individuals with limited mobility or anyone who values superior seated comfort.
- Dual-layer unique polymer gel structure features a different firmness level on each side - simply flip the cushion to customize your comfort and relieve pressure.
- Flexible gel structure reduces shear and friction, supporting those with limited seated tolerance or at risk for pressure ulcers.
- Open-cell design and cooling hyper-elastic gel promote airflow and prevent moisture, consistently providing a cool seating experience.
- Built-in carry handle makes transport easy, while the non-skid bottom ensures the cushion stays put during use.

Gel-U-Seat™ Skin Protection 3" Gel/Foam Wheelchair Cushion

Item #	Product Description
8046-1	16" W x 16" L x 3" H
8046-2	18" W x 16" L x 3" H
8046-3	20" W x 16" L x 3" H
8046-4	20" W x 18" L x 3" H
8046-5	22" W x 18" L x 3" H
8046-7	24" W x 18" L x 3" H

- The Gel-U-Seat™ skin protection cushion has a high density foam shell surrounding a uniquely designed gel bladder
- Dual chambered gel bladder provides proper immersion and envelopment for pressure redistribution
- Cover is water resistant and low shear stretch to reduce heat and moisture build-up
- Convenient 12" tie straps secure the cushion to the wheelchair
- Meets flammability standard TB117

MEDICAL

Independent Mobility

Support your mobility and safely enhance your independence with a walker from Drive Medical! We offer a variety of styles and features—including wheeled walkers, knee walkers, and walkers with built-in seating. Many of our walkers are designed to be operated by users with limited manual dexterity, and a wide variety are lightweight and feature a compact fold that makes them portable and easy to transport. Explore our products and find the perfect walker to complement your busy lifestyle!

AIR-GO™ WALKER

Walk on Air™

The Air-Go Walker redefines mobility—delivering comfort, ease, and freedom beyond traditional walkers. It's comfortable on the hands, stable underfoot, and ready when it's time to rest. With oversized, cushioned Airgonomic™ handles, water-dispersing treaded wheels, and a padded mesh seat, it gives users both freedom of movement and confidence in every step. For you, it delivers showroom differentiation, stronger customer loyalty, and reliable margins with MAP pricing you can count on.

The support of a walker meets the convenience of a rollator

Comfortable Hold, Every Time

Oversized Airgonomic™ handles cushion hands and are easy to grasp — even for users with arthritis or reduced dexterity.

Easily Rest

Enjoy the freedom to sit and rest when needed on the ¾-length open-and-go padded mesh seat—designed shorter to let users walk naturally—while four height adjustments ensure a comfortable, customized fit.

Compact, Stable, Travel-Ready

The scissor-fold frame collapses in seconds for storage and transport, and the 6" water-dispersing treaded wheels with rear ski glides provide smooth, stable movement across various terrain.

NexStride® by Drive®

Item

FG-1000

- Audible Metronome: NexStride®'s metronome emits an audible signal, engaging a different pathway in your brain to enable you to move forward.
- Visual Laser Line: In addition to audible external signaling, NexStride® uses visual external signaling by way of a laser signal that shows you where to step, giving your brain a target to focus on and a new way to engage with the body (this can also help correct stride issues).
- Regain Your Independence: Use NexStride walking cane, rollator, or walker accessories in your home to navigate between rooms and use the bathroom unassisted. Take NexStride on walks through the neighborhood or to meet up with friends and continue to enjoy the freedom and independence that comes with walking on your own.

MEDICAL

Bathroom Safety

Bathroom Safety Solutions

We at Drive Medical know that the bathroom is one of the most hazardous rooms in the house. To that end, building a safer bathroom is an important part of maintaining independence and a higher quality of life. Our bath safety products were clinically designed to meet the needs of individuals facing mobility challenges in both the long and short term. From shower chairs, to bath lifts, we provide a full spectrum of bath safety products to provide customers with customized solutions that help enhance their safety and comfort in daily life. With a focus on durability, portability, ease of assembly, and easy to clean surfaces, we've thoughtfully designed our products to suit the busy lifestyles of customers and caregivers.

15030BV-PKG-12	With Half Rails (#15201BV) and 80" Quick-N-Easy Mattress (#15076)

- The transition box mounted on the foot section is key to interchangeability
- The transition box allows you to change the rotation of the high/low shaft
- Headboard is taller than footboard to better fit home decor
- The wood grain panels are break and scratch resistant
- Foot section weighs 50% less than conventional foot sections to make deliveries safe and easy
- Once installed, the high/low shaft will stay with the bed to eliminate loss or forgetting on future installations
- Labels and color-coded springs assure accurate installation of side rails for patient safety
- Unique motor is completely self-contained to reduce weight and noise
- The motor assembly can be installed and removed with patient in bed
- Bed, side rails and mattress safety-tested by SGS, a nationally recognized testing facility
- Satisfies all applicable FDA entrapment guidelines
- The motor is UL approved
- In the event of a power failure, a 9 volt battery can lower the head and foot sections nine times
- No crank needed
- New and improved hand pendant has large, easy-to-use controls
- Channel frame construction provides superior strength and reduced weight
- Zinc-coated spring deck
- Extension kit available (model #15030EXTKIT) extends length from 80" to 84"
- Patent Pending

15033BV-PKG-1	With Half Rails (#15201BV) and 80" Innerspring Mattress (#15006)
15033BV-PKG-1-T	With Half Rails (#15201BV) and 80" Therapeutic Support Mattress (#15019)
15033BV-PKG-12	With Half Rails (#15201BV) and 80" Quick-N-Easy Mattress (#15076)
15033BV-PKG-4	With Half Rails (#15201BV) and 80" Fiber Core Mattress (item #15007)

- The transition box mounted on the foot section is key to interchangeability
- The transition box allows you to change the rotation of the high/low shaft
- Headboard is taller than footboard to better fit home decor
- The wood grain panels are break and scratch resistant
- Foot section weighs 50% less than conventional foot sections to make deliveries safe and easy
- Once installed, the high/low shaft will stay with the bed to eliminate loss or forgetting on future installations
- Labels and color-coded springs assure accurate installation of side rails for patient safety
- Unique motor is completely self-contained to reduce weight and noise
- The motor assembly can be installed and removed with patient in bed
- Bed, side rails and mattress safety-tested by SGS, a nationally recognized testing facility Satisfies all applicable FDA entrapment guidelines
- The motor is UL approved
- In the event of a power failure, a 9 volt battery, located in the hand control, can lower the head and foot sections nine times No crank needed
- New and improved hand pendant has large, easy-to-use controls
- Bed ships in two cartons
- Channel frame construction provides superior strength and reduced weight
- Zinc-coated spring deck
- Extension kit available (model #15030EXTKIT) extends length from 80" to 84"
- Patent Pending

Delta® Pro Homecare Bed System

Item #	Product Description
15003PN	Manual Bed - Standard Height
15004PN	Linear Semi Electric - Standard Height
15005LPN	Linear Full Electric- Low Height
15030N	Semi Electric - Standard Height
15033NC	Full Electric - Standard Height
15235N	Full Electric - Low Height

- This unique bed is designed to fit your needs offering a universal frame capable of configuring up to 6 different bed designs. Looking for a semi-electric bed? Full electric? Low bed? You can have them all with 1 universal frame system - the Delta Pro Bed by Drive.
- Patent pending Universal Frame can configure with various component to create up to SIX unique bed configurations offering more homecare bed options without the need to store more beds!
- Assists with inventory constraints by offering 1 homecare bed system that can transform to suit multiple needs using color coded component options
- Product Safety & Performance Standards: Meets IEC 60601-2-52; 60601-1; 60601-1-2; 60601-1-11
- Choose between semi-electric and full electric motor options to provide head, foot, and height adjustability of bed frame as needed (excludes 15003PN, manual crank homecare bed system)
- Ultra lightweight head and foot frames easy to set up with no links to connect and no tools required
- Square tube steel frame slat deck provides durable strength, no-sag mattress support, and is easy to clean
- HD Polyethylene molded bed ends are attractive, labeled for proper assembly, and easy to clean and maintain
- Bed End safety lock slides over hanger pins to prevent disengaging from bed ends
- UL approved motor is self contained for reduced weight and noise and can be easily installed and removed with patient in bed (excludes 15003PN)
- Reduce service calls with large glow in the dark hand pendant that is easy-to-use for adjusting head and foot deck sections; built in battery backup and LED indicators for power and lockout included (excludes 15003PN)
- Power failure protection available on dual style motors via a 9-volt battery (not included) located in the hand pendant which can return the frame to a horizontal position. Manual cranks included for all styles (excludes 15003PN, no electrical components means independent of electrical power availability)
- Frame includes mounted retractable full rail receiver brackets to eliminate cross braces ensuring proper placement and reducing equipment loss
- Half (15561HRAIL) and full (15561FRAIL) rails are available, sold separately, and meet FDA entrapment guidelines as well as ASTM standards

Item #	Product Description
15005LP	Full-Electric Bed
15005LP-FR	With Full-Length Side Rails (#15001ABV)
15005LP-HR	With Half Rails (#15201BV)
15005LP-FRPKG	With Full-Length Side Rails (#15001ABV) and 80" Innerspring Mattress (#15006)
15005LP-FRPKG-TS	With Full-Length Side Rails (#15001ABV) and 80" Therapeutic Support Mattress (#15019)
15005LP-HRPKG	With Half Rails (#15201BV) and 80" Innerspring Mattress (#15006)
15005LP-HRPKG-TS	With Half Rails (#15201BV) and 80" Therapeutic Support Mattress (#15019)

- Roll at any Height: 14.81" (376mm) to 22.83" (580 mm) deck height
- Roll at Low Height: 11.81 (300 mm) to 19.83" (504mm) deck height
- Height-adjustment and Head/Foot deck motors come pre-installed on the foot section
- In the event of power failure, top mounted Hi/Lo crank accessibility and manual crank motor override of sleep surface adjustments
- Easy-to-transport and set up, Bed ships in two cartons
- Channel frame construction provides superior strength and reduced weight
- Reinforced frame resists twisting and bending
- Long lasting Zinc-coated spring deck for Patient comfort
- Heavy-duty bed ends with durable HD Polyethylene Molded Bed End covers are easy-to-maintain
- Headboard is taller than footboard to blend with home decor
- Labels and color-coded springs help ensure accurate installation of side rails for patient safety
- High performance workhorse muscle of the 3-motor power plant is an industry standard
- Motor is UL Approved, Bed is manufactured in ISO9001 &
- Satisfies applicable FDA entrapment guidelines
- Extension kit available (model #15005EXTKIT-L) extends length from 80" to 84"
- Auto-Contour raises the head and foot of bed simultaneously to help prevent lower back and sacral shearing induced pressure injuries, eliminating an extra step for caregivers and residents without the need to remember FOB elevations before HOB
- Auto-contour may help prevent sacral shearing wounds by simultaneously elevating the head and foot bed sections so there's no sliding during position changes
- Only homecare beds boasting auto-contour which allows patients to stay comfortably in place while being better positioned for reading, watching television, or talking to staff and visitors

Solite Pro Homecare Bed Package

Item

15006LP

- The Solite Pro from Drive DeVilbiss Healthcare is a fully electrical profiled homecare bed that offers smooth, quiet operation and versatile positioning for maximum patient comfort. The Solite Pro can nest within itself and comes standard with a built-in transport stand for storage and easy transport. Additional features include a tool-free built-in leg extension extending from 80" to 84", knee break function, and improved actuators in the variable height mechanism that add to the strength of the bed, all while retaining an attractive, domestic look and feel.
- Redesigned platform for improved patient comfort when profiling
- Individual sections strengthened for extended performance and reliability
- Improved integral leg extension with safety features to prevent entrapment
- Improved auto-regressing backrest prevents pinching in the sacral area
- All individual sections of the bed weigh less than 55 lbs. (25 kg) for easier assembly
- Four braked castors for maneuverability and safety
- Easy-use handset controls all functions and includes lockout function
- Transport stand included
- Optional integral full-length side rails for safety and ease of use (item #: 15006LEXRAIL)
- Additional optional accessories sold separately include grab handles in two height options, standard (item #: 15006LPSTDRAIL) and short (item #: 15006LSHRTRAIL)
- Rail accessories meet FDA and ASTM entrapment guidelines and standards

Lightweight Bariatric Homecare Bed

Item #	Product Description
15300LW	42" W x 80" L
15300LW-HR	42" W x 80" L with Half Rails (15021BV-LW)
15302LW	48" W x 80" L
15300LW-HR	48" W x 80" L with Half Rails (15021BV-LW)
15303LW	53" W x 80" L
15303LW-HR	53" W x 80" L with Half Rails (15021BV-LW)

- Drive is leading the way in Homecare beds by introducing the next generation of Bariatric support. Introducing Drive DeVilbiss' new Lightweight Bariatric Beds. With frames upto 100 lbs lighter than most current Bariatric offerings, these beds are easy to maneuver, transport and assemble. Without compromising strength, these durable lightweight frames have been tested and verified to maintain the same safe working **load capacity of up to 1000 lbs! (Weight capacity varies by size)**. Available in 42", 48" and 54" widths gives patients the space they need to recover and providers the ability to deliver and assemble with ease
- Lightweight frame design offers providers easier and more manageable bed deliveries and assemblies
- Allows for additional space for patient comfort and recovery as well as caregiver efficiency
- Product Safety & Performance Standards: Meets IEC 60601-2-52; 60601-1; 60601-1-2; 60601-1-11
- Full electric bariatric homecare bed with dual motor assembly for head and frame adjustability
- Ultra lightweight frame is easily set up by 1 individual; no links to connect and no tools required
- Square tube steel frame slat deck provides durable strength, no-sag mattress support, and is easy to clean
- Scratch resistant wood grain panel bed ends include hi lo motors for frame height adjustability
- UL approved motor is self contained for reduced weight and noise and can be easily installed and removed with patient in bed
- Reduce service calls with large glow in the dark hand pendant that is easy-to-use for adjustments; LED indicators available for power and lockout included
- Battery Back up accessory available (#15302LWB) and sold seperately
- Rail accessories meet FDA and ASTM entrapment guidelines and standards

Supportive Pressure Relief for Safety & Comfort

When it comes to products and solutions for individuals whose limited mobility puts them at risk of pressure injuries, we know that safety, comfort, and dependability are paramount. Drive Medical has worked with clinical experts to develop effective products to meet the specialized needs and lifestyles of individuals who require dedicated support and care to minimize their risk of pressure injuries. Explore our array of pressure-reducing products, including cushions, pads, and a range of alternating pressure mattresses, and feel secure in the knowledge that you and your loved ones are in good hands with high-quality products from Drive.

Premium Guard Gel Overlay

Item #	Product Description
14893	34" W x 76" L x 3.5" H
14901	42" W x 76" L x 3.5" H

- Best in class gel overlay optimizes pressure redistribution and is now available in up to 500 lbs weight capacity
- 15 gel bladders cover entire patient contact area for the prevention and treatment of pressure ulcers
- Full length "head-to-toe" gel bladders minimize "bottoming out" and "pitting"
- New convoluted foam topper vastly improves patient comfort and air circulation
- 4 elastic corner straps secure overlay to mattress
- Urethane coated nylon cover is water resistant and vapor permeable
- Vinyl base is stain resistant and waterproof
- Bladders contain an aqueous non-toxic gel and polystyrene beads to minimize gel migration
- Meets flammability standard TB117

Med-Aire Melody Alternating Pressure and Low Air Loss Mattress Replacement System

Item #	Product Description
14026	Visual Alarm
14026-A	Visual Plus Audible Alarm

- Designed to prevent, treat and heal pressure ulcers in the home or long term care setting
- Control unit offers 10 minute cycles when alternating and can also be used in static mode
- Adjustable patient weight settings allow for optimal immersion and patient comfort & compliance
- System includes 20 individual air cells to maximize immersion and envelopment with pillow feature for head stability
- 8" deep air cells are easily removed for convenient servicing
- Removable nylon cover is fluid resistant, low shear and vapor permeable
- CPR valve allows for rapid deflation
- Tubing quickly and easily disconnects

Med-Aire 5" Alternating Pressure and Low Air Loss Overlay System

Item #	Product Description
14025NS	36" W x 80" L x 8" H

- Designed to prevent and treat pressure injuries in the home or long-term care setting, the Med-Aire 5" is an active mattress overlay system featuring 17 individual, 5" deep air cells. The 14025NS can be used on top of any standard foam or innerspring mattress and offers both alternating pressure and low air loss therapy to optimize pressure redistribution, shear and friction reduction, and microclimate control. The easy to use and intuitive control unit also offers a static feature and adjustable patient weight settings for optimal immersion, comfort, and compliance.
- Active mattress overlay system provides both alternating pressure and low air loss to optimize pressure redistribution, shear/friction reduction, and microclimate control
- Designed to prevent, treat and heal pressure injuries in the home or long term care setting
- Control unit offers 10 minute cycles when alternating and can also be used in static mode
- Adjustable patient weight settings allow for optimal immersion and patient comfort & compliance
- Visual alarm alerts when air pressure is low
- System includes 17 individual air cells to maximize immersion and envelopment
- Pillow feature maintains the 3 air cells at the head of the bed in static mode for head stability & patient comfort
- 5" deep air cells are easily removed for convenient servicing
- Removable Nylon cover is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture
- CPR valve allows for rapid deflation
- Tubing quickly and easily disconnects with EZ Lock/Quick Release design

- Active combination bariatric therapy system provides both alternating pressure and low air loss to optimize pressure redistribution, shear/friction reduction, and microclimate control
- Designed to prevent, treat and heal all stages of pressure ulcers in the home or long term care setting
- Digital control unit offers 4 cycle times and adjustable comfort weight settings for optimal immersion and patient satisfaction
- 3 diagnostic audio and visual alarms alert for issues with air pressure, the system, or power
- System includes 20 individual air cells to maximize immersion and envelopment with pillow feature for head stability & comfort
- Advanced Clinical and Care Giver Features: Auto-Firm, Seat Inflate, auto-recovery, microprocessing feedback, lock-out and more!
- Cell-on-cell designed air cells prevent "bottoming out" and provide up to 24 hours of power outage protection
- 10" deep air cells are easily removed with quick disconnects for convenient servicing
- Removable quilted Nylon cover is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture
- CPR valve allows for rapid deflation
- Tubing quickly and easily disconnects with EZ Lock/Quick Release design

Med-Aire Assure 5" Air + 3" Foam Base Alternating Pressure and Low Air Loss Mattress System

Item #	Product Description
14530	36"W x 80"L x 8"H

- Active mattress replacement system provides both alternating pressure and low air loss to optimize pressure redistribution, shear/friction reduction, and microclimate control
- Designed to prevent, treat and heal pressure ulcers in the home or long term care setting
- Control unit offers 10 minute cycles when alternating and can also be used in static mode
- Adjustable patient weight settings allow for optimal immersion and patient comfort & compliance
- Audio and Visual alarm alerts when air pressure is low
- System includes 17 individual air cells over a 3" foam base for power outage protection
- Pillow feature provides head stability & comfort
- 5" deep air cells are easily removed for convenient servicing
- Removable quilted Nylon cover is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture
- CPR valve allows for rapid deflation
- Tubing quickly and easily disconnects with EZ Lock/Quick Release design

PreserveTech™ Med-Aire Edge Alternating Pressure & Low Air Loss Mattress Replacement System

Item #	Product Description
14360-B	36" W x 80" L x 8" H - Analog
14360-P	36" W x 80" L x 8" H - Digital

- Active mattress replacement system provides both alternating pressure and low air loss to optimize pressure redistribution, shear/friction reduction, and micro-climate control
- Designed to help prevent, treat and heal pressure injuries
- Control unit offers 10-minute cycles when alternating and can also be used in static mode (exclusive to #14360-B)
- Control dial to optimize patient comfort levels by weight (exclusive to #14360-B)
- Advanced digital control unit offers 4 adjustable APM cycle times (10/15/20/25), and adjustable comfort weight settings for optimal immersion & patient satisfaction (exclusive to #14360-P)
- 9 deluxe clinical and care giver features: auto-firm, seat inflate, micro processing feedback, lock-out and more (exclusive to #14360-P)
- Audio and Visual alarm alerts when air pressure is low
- Digital control unit features 3 diagnostic audio and visual alarms to alert for issues with air pressure, the system, or power (exclusive to #14360-P)
- System includes 20 individual air cells to maximize immersion and envelopment and redistribute pressure with pillow feature for head stability and comfort.
- 8" firm foam perimeter for safe ingress and egress (getting into and out of the bed), patient transfers and power outage protection.
- 3" foam base for power outage protection
- 5" deep air cells are easily removed with quick disconnects for convenient servicing
- Removable and machine washable quilted 4-way stretch PreserveTech™ cover is fluid resistant, low shear and vapor permeable
- CPR valve allows for rapid deflation
- Tubing quickly and easily disconnects with EZ Lock/Quick Release design
- 45db decibel level

PreserveTech™ Harmony "True" Low Air Loss Tri-Therapy System

Item #	Product Description
14200N	36" W x 80" L x 10" H
14200N-42	42" W x 80" L x 10" H

- Designed to prevent, treat and heal pressure injuries in the home or long term care setting.
- Advanced, user friendly high-flow digital control unit offers (4) therapy cycle times ranging from 5 to 20 minutes, and (10) adjustable comfort weight settings for optimal immersion and patient satisfaction.
- High air flow "true" low air loss system wicks away moisture and humidity providing optimal micro-climate control
- Features three diagnostic audible and visual alarms to alert for issues with air pressure, power or the system.
- 20 individual, 8" deep air cells provide optimal patient comfort and pressure redistribution.
- 2" foam base offers protection in the event of a power outage or system failure.
- The cell material, Nylon/TPU blend, provides a specialty surface that conforms to the specific shape of the patient (immersion), minimizing soft tissue distortion, reducing bone and muscle friction.
- Quick cell disconnects offer convenient servicing and auto firm feature inflates air cells in under two minutes for rapid set up and ease of care giving.
- Removable, quilted four way stretch cover is manufactured with an anti-microbial* agent and is fluid resistant, low shear and vapor permeable helping protect the skin
- Built in cable management with (5) side mattress loops to keep cables off the floor, reducing tripping hazards.
- Snap fit buckle allows the system to be compactly wrapped for quick and easy storage within the included perfect fit carry bag
- CPR connector in case of emergency procedures releases the air immediately from the mattress for rapid deflation
- Tubing quickly and easily disconnects with EZ lock/quick release design
- Clinical and caregiver features include pulsation therapy, auto-firm, micro-processing feedback, lock-out and more!

PreserveTech™ Lateral Rotation System With On Demand Low Air Loss

Item #	Product Description
LS9500N	36" W x 80" L x 10" H

- Active mattress replacement system incorporating the functions of lateral rotation and low air loss to assist with pulmonary blood flow and mucosal drainage aiding in the prevention and treatment of pressure injuries in a single portable system.
- Combination therapy active system incorporates the functions of lateral rotation and low air loss to assist with pulmonary blood flow and mucosal drainage, as well as provide microclimate control to keep the patient cool and dry aiding in the prevention and treatment of pressure injuries in a single complete system.
- Mattress features 20, 8" individual split air cells provide customizable turn and rotation angles for optimal patient comfort and pressure redistribution.
- 2" foam base offers protection in the event of a power outage or system failure.
- 10" high side air bolsters provide fall prevention protection and facilitate safe patient transfers.
- Unique split air cells provide customizable turn time and rotation angles for patient comfort and satisfaction.
- Control unit offers 10 comfort levels, 10, 20, 30 & 60 minute adjustable turning cycles and maximum turn angle adjustments.
- Turning modes include combinations of ¼, ½, ¾, and adjustable turning positions up to 40 degrees with left, right, both or none (static) directions.
- Removable quilted four way stretch polyurethane coated cover is manufactured with an anti-microbial* agent and is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture.
- Pillow feature provides head stability and comfort.
- CPR connector allows for rapid deflation.
- Tubing quickly and easily disconnects with EZ lock/quick release design.
- Built in side loop cable management system reduces tripping hazards.
- Audio and Visual alarm alerts when air pressure is low.
- Advanced Clinical and Care Giver Features: Auto-Firm, auto-recovery, microprocessing feedback, lock-out and more!

Balanced Aire Powered Self Adjusting Convertible Mattress

Item #	Product Description
BA9600-NP	35" W x 80" L x 7" H - Non-Powered
BA9600-NP-84	35" W x 84" L x 7" H - Non-Powered
BA9600-P	36" W x 80" L x 7" H - Powered
BA9600-P-84	36" W x 84" L x 7" H - Powered
BA9600-NP-42	42" W x 80" L x 7" H - Non-Powered
BA9600-P-42	42" W x 80" L x 7" H - Powered

- Versatile reactive mattress replacement system with self adjusting air/foam cells provides outstanding pressure redistribution and shear/friction reduction
- Designed to prevent, treat and heal pressure ulcers in the home or long term care setting
- Add an alternating pressure pump and the Balanced Aire easily converts to a dynamic powered system (14005E or BA9600-PUMP)
- 2.5" Hybrid Visco foam top layer provides immersion, premium comfort and heat dissipation
- High density foam perimeter provides firm edge support and facilitates safe patient transfers
- Heel slope redistributes pressure away from vulnerable heels
- Self-adjustment can be open cell or closed cell to meet individual needs
- Self-Adjusting air cells recognize body weight and pressure and adjust to reduce interface pressure and improve patient comfort
- Eight non-circular cylinders prevent "rolling" or "gapping"
- Removable 4 way stretch PU cover is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture
- Arrives patient ready easy to deliver, set up and transport
- Foam and cover are antimicrobial, antifungal, and latex free
- Meets flammability standards CFR1632 and CRF1633

Gravity 6 Long Term Care Pressure Redistribution Mattress

Item #	Product Description
15670	36" W x 80" L x 6"

- High quality latex free therapeutic foam mattress provides pressure redistribution and shear/friction reduction
- Intuitive tie-down straps easily fasten to virtually any bed frame for a secure fit to reduce mattress migration and falls
- Full length articulation cuts to extend mattress life cycle and improve conformity to all bed positions
- Newly added handles make setup, delivery, and cleaning easier
- Deluxe horizontal, cross-cut foam mattress provides comfort, support, and pressure redistribution over 5 therapeutic pressure zones
- Better compliance and durability than innerspring mattresses allows for improved patient satisfaction
- Non-skid vinyl bottom cover keeps mattress safely in place
- Heel section is sloped offloading pressure
- Removable multi-stretch cover with welded seams is fluid resistant, low shear and vapor permeable helping protect the skin
- Softer and longer-lasting durable cover tolerates disinfectant cleaning supporting infection control, refer to user manual for suggested disinfectants
- Meets flammability standard CFR 1632 and CFR 1633

15876	36" W x 76" L x 6" H - Without Raised Rails
15877	36" W x 76" L x 6" H - With Raised Rails

- Therapeutic die-cut foam spans the full width for maximum patient contact
- Drive's most popular therapeutic foam mattress maximizes value and comfort with 3 full layers of latex free foam
- Full length articulation cuts to extend mattress life cycle and improve conformity to all bed positions
- Bottom layer provides full length horizontally scored articulation cuts extending the durability and life of the mattress
- High-density foam perimeters remain beneath for safe patient transfers
- Available with or without raised side rails
- Visco foam heel section offloads pressure from vulnerable heels
- Removable multi-stretch cover with welded seams is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture
- Softer, more supple, longer lasting cover fabric for enhanced comfort
- Reduce mattress migration and reduce falls- easy to use and intuitive "d" ring straps quickly and easily secure mattress to virtually any bed frame
- High-density foam perimeters remain beneath for safe patient transfers
- New handles make setup, delivery, and cleaning easier
- Unparalleled non-prorated 7-year warranty with Date Stamped Foam
- Meets flammability standard CFR 1632 and CFR 1633

Drive® DualEase® Gel Cushion

Give customers clinically designed skin protection and provide enhanced comfort with a reduced risk of pressure injuries (E2622)—no pump required—with our **Drive DualEase™ Polymer Gel Cushion**. Ideal for individuals with limited seating tolerance, the Drive DualEase™ Polymer Gel Cushion features a patented unique polymer gel structure that cradles ischial tuberosities and the coccyx, effectively redistributing pressure while promoting airflow to keep users cool and dry. Made from hyperelastic polymer gel, the cushion helps absorb shock and vibrations. With two firmness options in one reversible design, it accommodates a wider range of patient needs while reducing inventory complexity.

Item #	Description	UPC	UOM

Top Cover Fabric Stretch Nylon

Antimicrobial

HCPCS Code E2622

Weight Capacity 300 lb.

Warranty 2 Years

Helps Prevent and Treat Pressure Wounds

With a flexible, interconnected dual-layer structure, the cooling polymer gel and open-cell design cradles bony prominences while absorbing shifting forces to reduce shear and promote airflow, reducing heat and moisture and protecting skin integrity. The self-recovering design maintains its shape and pressure reducing properties over time.

Streamlined Inventory

Enjoy the ease of reduced SKUs thanks to the dual-sided design providing two firmness options for varied patient needs. Available in 3 different widths (16", 18", and 20"), it's perfect for use with wheelchairs or anywhere!

Skin Protection

Protect vulnerable skin from moisture and irritation with a nylon two-way stretch cover, which is removable, machine washable for easy cleaning, and replaceable.

Go-Anywhere Design

Lightweight and easy to use on multiple seating surfaces with a stable, non-skid design—or take along for comfort on the go with two convenient carry handles.

Builds Trust With Customers

Backed by a non-prorated 2-year warranty, our cushion features PreserveTech™ antimicrobial* technology to help it stay cleaner and last longer. Replacement covers are available.

*Antimicrobial properties are built-in to protect the products; these products do not protect users or others against bacteria, viruses, germs, or other disease organisms

PrimeMat 2.0 Impact Reduction Fall Mats

Item #	Product Description
PM20BA	24" W x 70" L x .75" H - Brown
PM20GA	24" W x 70" L x .75" H - Grey

- Full length provides maximum coverage alongside bed
- Tough and lightweight - Mats are constructed from high quality molded Polyurethane foam inner core (210kgs/ cubic meter) to provide maximum absorption and rebound to reduce impact in the event of a fall
- Passed 5 foot "Egg Drop Test" - an egg was dropped from 5 feet above the mat without damage
- Low profile with tapered edges allow equipment such as overbed tables or patient lifts to roll over easily
- Anti-slip bottom netting keeps the mat secure to help prevent accidental tripping
- Embossed non-slip PVC leather look top is not only attractive but extremely durable and puncture resistant
- Non-slip pattern helps minimize slipping and is easy to clean with mild soap and water
