

BariMatt™ Plus

Pressure Redistribution Bariatric Surface

Multiple surface configurations provide the flexibility to care for a wide range of patients

Customize surface width and length with foam bolster inserts

Seamless cover minimizes infection control issues

Enhance patient comfort with high-memory visco-elastic foam

Versatile Configurations for Every Patient

The BariMatt Plus provides care for a wide range of patients. The versatile surface configurations allow for the surface to be customized to each individual patient with foam bolster inserts. The seamless cover minimizes infection control issues while the visco-elastic foam maximizes patient comfort.

Customizable width and length provides optimal comfort for each patient.
