

ARCTIKO Flexaline LFE 125-US

true cooling specialists

BIOMEDICAL FREEZER

The LFE 125-US is an under-counter biomedical freezer designed to deliver exceptional features for biomedical applications. The freezer ensures precise temperature control within the range of 10°C to -25°C. The LFE 125-US has single processor technology for easy maintenance, low energy consumption and noise reduction.

► ENERGY STAR CERTIFIED

Energy Star certified, guaranteeing exceptional energy efficiency and reduced environmental impact, while maintaining superior performance in temperature-sensitive storage applications.

► INTEGRATED DATA LOGGER

Integrated data logger, providing accurate monitoring of temperature conditions. This allows for precise data recording and analysis, ensuring optimal storage conditions for critical samples and maintaining regulatory compliance.

► KEY LOCK SECURITY

Equipped with a secure key lock, providing an added layer of protection for valuable contents and preventing unauthorized access. This feature ensures the integrity and confidentiality of stored items, making it ideal for environments where security is paramount.

► SNAP/EPA COMPLIANT REFRIGERANT

Utilizes refrigerants that are fully compliant with the Environmental Protection Agency (EPA) and the Significant New Alternatives Policy (SNAP) regulations, ensuring environmentally responsible operation without compromising performance or safety.

LFE 125-US

The digital controller features visual and acoustic alarms, high/low-temperature alarms, open-door alarms and a data logger.

The shelves are easily adjustable to offer the best flexibility for your storage needs.

All models in our Flexaline range feature durable, cost saving LED lighting for better overview of your samples.
