Intuitive, adaptable walk-behind scrubber dryer

Labor shortages and high employee turnover mean cleaning equipment needs to be easy to learn and intuitive to operate. The SC550 allows even first-time operators to get started fast and clean like pros.
Your success is at the heart of our solutions The Nilfisk SC550, walk-behind scrubber is designed to help your team thrive and your business succeed. Simple and intuitive to learn, use, and maintain, the SC550 gets your team up and running quickly, with very little training. Its ergonomic design makes it comfortable for the operator, and efficient use of resources makes it gentle on the planet

- 7” high quality screen has intuitive controls that only show what is needed. The touch screen is complemented with a dial that makes it easy to use if an operator’s hands are wet or if they are wearing gloves.
- Operators get up and running quickly with onboard tutorials. Step-by-step maintenance guides and a daily maintenance checklist are built into the user interface.
- Colored touchpoints indicate where users should interact for efficient maintenance. For example, you can easily see how to remove the squeegee and where to hang it to dry.
