<input type="checkbox"/> 503016	36 Pr./Cs.

A uniquely designed heel protector that places three layers of plush synthetic sheepskin directly under the critical pressure point of your patient's heel. Maintains maximum resiliency for constant pressure relief.

### LAUNDERING INSTRUCTIONS

Wash and dry at temperatures up to 180°F (82°C). Bleaching is not recommended. To prolong the useful life of the hook-and-loop secure closure before laundering.
