FEATURES

- Expertly designed air circulation and refrigeration systems
 ensure temperature stability and uniformity throughout the cabinet,
 meeting CDC guidelines and eliminating hot and cold spots that
 could put your contents at risk.
- True Scientific products use R290, a natural refrigerant that is future-proof and sets sustainability standards while providing increased efficiency and reduced operating cost.
- Reliability you can count on with best-in-class warranty –
 3 year labor, 5 year parts, 7 year compressor warranty
- Self-Cleaning condenser technology reduces the need for cleaning the condensing coil, reduces energy consumption, and helps maintain the tightest temperatures.
- Battery backed-up digital display of current temperature with alarms for high/low temp, power failure, sensor failure and door ajar.
- Adjustable perforated and non-peal white coated steel shelves, ideal for storing large containers as well as vials and tubes.
- Simulated Temperature Monitoring measured in a glycol-filled bottle to simulate actual product temperature.
- Laboratory models have a temperature probe port in the rear of the unit plus a 2 inch access port on either side.
