

Stroops OPTIMILL Flat Motorless Treadmill

OptiPlus
(Includes Anchoring Tail/
Attachments)

We're driven because you're driven. The Stroops Optimill® is a one-of-a-kind design of motorless treadmill built to give you the most authentic experience possible. The Optimill® is motorless and is driven forward by the force of your foot while your body is held in place by a shock-absorbent Slastix resistance band attached to a steel spine.

A Study in Perfection. The Optimill® provides neurological, musculoskeletal and cardiovascular benefits that offers a variety of options - including unweighting, symmetrical and asymmetric resistance enhancements. Its smooth motion is powered by your pace, slowing and stopping at the same time as you. The strap holding you in place is also designed for shock-absorbency with our Slastix resistance band technology.

SPECIAL FEATURES:

- No electricity required
- Designed for safety
- Light weight and portable
- True walking/running experience
- No slippage
- Small footprint
- Commercial grade
- Speed: Limitless
- Power: Monitor AA Batteries
- Display: Time/Distance/Speed/Calorie/Pace/Heart Rate
- Heart Rate System: Polar Wireless Chest Sensor
- Weight Capacity: 400 lbs
- Track Size: 17" x 46.8"
- Product Size: 30.3" x 58.5" x 63"
- Product Weight: 220 lbs (100 kg)
- Shipping Dimensions: 350 lbs (159 kg); 95" x 36" x 24"

Warranty: Frame: 5 year; Parts: 1 year; Labor: 1 year
